Fran Schwartz	<u>x</u>
Mary Scipioni	<u>x</u>
Andrew Spencer	<u>x</u>
<i>vacancy</i>	

June 26, 2023 minutes: x Approved Not Considered

OLD BUSINESS

6AR-2-23, 370 Kimberly Dr

Carla Giambrone

Addition to rear of house, new front porch, existing garage to be removed and relocated.

Notes: * Plans, drawings, and photos were presented by Pat Morabito, architect, and Joe Giambrone, contractor, for review by the board

- Eliminated cultured stone.
- Materials:
 - Roof: Timberline HDZ; color: charcoal
 - Windows: white
 - Siding: Hardie Board & Batten; color: Arctic white
 - Trim for corners, frieze, window wraps: Hardie
 - General Shale Brick veneer: natural color & manufactured white

Decision: Approved as presented

6AR-3-23, 76 Southern Pkwy

Jeff Simerson

Changing size of front kitchen window.

Notes: * Plans, drawings, and photos were presented by Jeff Simerson, contractor, for review by the board.

- Height change, sill of window going up 8 inches.
- Grill as noted to match style of existing windows.
- Materials:
 - Trim: cedar, will be painted white.
 - Windows: Marvin, synthetic white frames.
 - Siding in-fill: natural cedar, will be painted blue to match existing.

Decision: Approved as presented

6AR-5-23, 230 Vernon Pl

Patrick Reed

Changing sunroom windows

Notes: * Plans, drawings, and photos were presented by Pat Reed, owner, for review by the board.

- Already purchased bay window and would really like to incorporate it into the project.
- Purchasing custom-made diamond grill (in dark brown) for new windows to match the house's existing windows.
- 233 Vernon Pl (house across the street) presented as a comparison with a bay window – the comparison has the wall below the bay window bumped out. 230 Vernon will not bump out the wall below the bay window.
- Will fill hollow area below bay window with insulation and close with wood.
- Materials:
 - Pella dark brown casement windows on side and back of room to replace jalousie windows and sill.
 - Roof: dark brown/red shingles to match existing.
 - Exterior wall / siding: Hardie cement board (between new windows and existing posts, as well as where stucco is being removed below existing windows).

Decision: Approved as presented

NEW BUSINESS

7AR-1-23, 407 Hemingway Dr

Chris Catan

Expansion of existing deck. Add exterior door and add ramp to ground level for wheelchair access.

Notes: * Plans, drawings, and photos were presented by Chris Catan, owner, for review by the board.

- Deck is for Chris' son Peter, who is in a wheelchair.
- Existing deck (approximately 192 sq ft) is about an inch lower than the door threshold.
- Discussion of maximum slope of ramp for ADA compliance.
- Deck designed by Home Depot: will be 6-8 inches off the ground and have 12 inch joists.
- Potential concern about snow piling up by the door to the house.
- Materials:
 - Timbertech decking; color: coconut husk
 - Pressure-treated wood railing

Decision: Approved as presented

7AR-2-23, 4 St Johnsville Trl

Craig Forsey

New single family house

Notes: * Plans, drawings, and photos were presented by Craig Forsey, project manager, John (contractor with FSI), Eric and Marc (Marrano / Marc Equity Corporation), for review by the board.

- Plan to use this house as a model home for the Fort Plain neighborhood.
- Side elevations: too much blank wall, not enough windows – driven by floor plan and speculation of furniture placement.
- Dormer window above front door is real. Opens to foyer.
- Cultured stone at grade is prone to water damage. Suggest using natural stone.
- Downspouts directed to exterior corners.
- Materials:
 - Roof: weathered wood (Atlas: ProLam)
 - Siding: Hardie plank & shingle; color: dried herbs
 - Cultured Stone: Ply Gem Fieldstone; color: PA Lime

- Windows: Marvin Elevate; color: cashmere
- Overhead door: Wayne Dalton 9700 Providence; color: desert
- Entry door & sidelites: Therma-Tru FCM606XC; color: English walnut
- Trim: Hardie, PVC, fascia, gutters, downspouts:
- Brackets: Fypon; color: cobblestone

Decision: Approved with condition

1. Add windows to both side elevations, including in garage and dinette areas.
