To: Rick DiStefano <rick.distefano@townofbrighton.org>

Hi Rick,

I have not received all the information requested by the board and need to postpone until January.

Have a great day.

Regards,

Rhonda Kay

**Subject:** 2829 W Henrietta Rd

Hi Jason,

My name is Mary Arcidiacono and I am the property owner of 2831 W Henrietta Rd which contains Gold4cash and the Tsing Tao House Restraunt. I apologize I wasn't able to make it to last weeks meeting, I wasn't feeling well but I am back in the office today and saw the hearing notice and it reminded me I needed to email you. So my concerns with a convenience store going into that location is as follows:

**Parking-** There is already a serious parking issue in regards to that building. There is no were near enough parking for the three businesses and two apartments so my parking lot has customers of those business in it pretty much all day long and this was the case when a small retail cellphone store was there. If a convenience store goes in there, it will be way more in and out traffic which will only spill into my parking lot. Decreasing the spaces for my and my tenants parking, adding to wear and tear on my parking lot and not to mention the litter.

**Traffic-** This area of west henrietta rd is already crazy enough, with an accident happening out front of the building multiple times a week, as a matter of fact there was one today, two saturday and two friday. There is no light here so again with so much in and out traffic of a convenience store that will only increase the craziness and the amount of auto accidents in the area.

**Garbage-** This property currently has two garbage and recycling toters for the two apartments upstairs, one for the spa and then one dumpster that is for the bubble tea place. The dumpster is actually in one of the parking spots, with no coral, no fence and no kind of barrier of any kind. I know this is against town code, being there is no recycling, so all the cardboard from the business is being thrown away, there is no coral so all the garbage that blows around ends up in my landscaping, parking lot and neighboring properties and its taking up a parking spot. So I am not sure how that keeps getting over looked but if there is another business that turns over a lot of cheap products then they will need a dumpster also. Would this one end up in another parking spot or be fenced in to keep all the garbage at bay?

Thank you for your time and consideration on the matter, if you have any questions or comments, feel free to call me on my business phone 585-415-1514.

Thank you  
Mary Arcidiacono

**Part 2 - Identification of Potential Project Impacts**

| Agency Use Only [If applicable] |           |
|---------------------------------|-----------|
| Project :                       | 12A-02-23 |
| Date :                          | 12-6-23   |

**Part 2 is to be completed by the lead agency.** Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

**Tips for completing Part 2:**

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

***Full Environmental Assessment Form***  
***Part 3 - Evaluation of the Magnitude and Importance of Project Impacts***  
***and***  
***Determination of Significance***

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

**Reasons Supporting This Determination:**

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

The proposed project deals only with a reduction in required number of parking spaces, having no short-term, long-term or cumulative environmental impacts.

**Determination of Significance - Type 1 and Unlisted Actions**

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the  
Town of Brighton Zoning Board of Appeals as lead agency that:

☒ A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

☐ B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).

☐ C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.
