- The IDEA plan is a six part/category plan that was adopted by the Town Board this fall.

#### **Communications:**

#### **Old Business**

- **Climate Action Plan Update**
  - East Brighton Town Hall event occurred on 11/2
    - One of the main public comments was that the Town should be sure to consider the effect of trees on greenhouse gases in the CAP.
  - Discussion about the draft GHG report
    - Carbon sequestration should be included in the GHG report, final numbers are currently being evaluated.
    - General thoughts are that the GHG report is too drafty and possibly too technical, overall, unclear and needs edits and improvements before it is presented to the public.
    - Several charts are unclear and do not depict the information they are trying to convey properly such as pie graphs that do not represent parts of a whole.

- Pollinator Garden
  - Brendan and Evert met with the Seneca Park Zoo Society about possibilities for retrofitting the GIGP with pollinator habitat. Town staff is awaiting updates from the Seneca Park Zoo.
  - Shubhangi presented her thoughts:
    - Certain plants in the GIGP are doing well- daylilies, ajuga, and blue flags.
    - Shubhangi would like to bring phased color blocks in with large plantings of specific colors.
    - Town staff will share the schematics put together by Shubhangi with reps from the Seneca Park Zoo society.
