Re: Town Hall Renovation- Landry Mechanical (Contract #3)
Change Orders # 2, 3, 5, 6, 7

Dear Councilperson Salzman and Committee Members:

At the November 13, 2024 Town Board meeting, the Board approved awarding of the Town Hall Renovation Contract #3 (Plumbing) to Landry Mechanical for the bid amount of \$396,482.00. The Board further approved the Supervisor to be authorized to execute necessary change orders up to 10% of the base bid (\$39,648.20). Currently, the Supervisor has approved change orders in the amount of \$41,827.00.

Landry has submitted Potential Change Orders (PCO) for the Plumbing work being done as a part of the Town Hall Renovation. Below is a description of the work done for each of the PCO.

1. PCO #2 is \$9,667.82, which reflects the costs associated with the re-work of the base bid plumbing system and additional work requested to complete the changes outlined in ASI-04. ASI-04 is the big revision requested by the Town to accommodate additional office space in the building.
2. PCO #3 is for \$2,403.76, which reflects additional work to isolate plumbing fixtures in the walled off Library area to facilitate the demolition of asbestos laden material in DPW during the abatement process due to found conditions.
3. PCO #5 is for \$7,608.34, which represents the work completed to install a new floor drain in Mechanical Room 002D requested by Town staff and included as part of ASI-05.
4. PCO #6 is for \$23,575.68, which represents additional labor to remove a second layer of concrete flooring founder under the first layer in the ground level. This was an unknown/found condition.
5. PCO #7 is for \$4,797.64, which represents the additional costs to provide a ballasted wind restraint option for the roof gas pipe as opposed to the roof penetration option.

The total cost for the PCO's is \$48,053.24. This proposal amount would increase the total change order amount over the authorized 10% of the base plumbing contract amount. I recommend that the Supervisor be authorized to sign a change order for this work in the amount of \$48,053.24.

As always, thank you for your consideration. I will be in attendance at your regularly scheduled July 16, 2025, meeting in the event that you have any questions regarding this matter. As always, your consideration of matters such as this is greatly appreciated.

Sincerely,

Ken Hurley, P.E.

Re: 2025-26 Annual Audit Fees
Mengel Metzger Barr & Co., LLP

Dear Honorable Town Board:

Currently, the Town Board has held an Engagement Letter for Accounting Services with Mengel Metzger Barr & Co. During our last agreement for 2023-24 MMB fees increased 4.0% each year and our 1st quote for 2025 and 2026 services increased 7.2% and 3.9%. After negotiation, MMB offered a two-year agreement with increases of 3.6% for 2025 and 2026 per the schedules below:

	2023	2024	2025 2 nd Quote	2026 2 nd Quote
• Regular Audit	\$22,700	\$23,600	\$24,300	\$25,025
• AUD Preparation	1,550	1,600	1,625	1,650
• Special Review	2,300	2,400	2,450	2,500
• Justice	3,000	3,125	3,225	3,325

TOTALS	\$31,850	\$33,125	\$34,325	\$35,550

Therefore, I request the Town Board approve the second of the two agreements for services of the 2025 & 2026 years and that the Supervisor be authorized to sign the associated engagement letters with the lower fee increases of 3.6% for 2025 and 2026 audit services and the single audit fee remaining at \$4,500 bringing the effective fee increase to 3.2% annually.

I will be happy to respond to any questions that members of the Committee or other members of the Town Board may have regarding this matter.

Mr. Earl Johnson, Director of Finance
Town of Brighton
2300 Elmwood Avenue
Rochester, New York 14618

Dear Mr. Johnson:

The following represents our understanding of the services we will provide the Town of Brighton, New York (the Town).

You have requested that we audit the governmental activities, each major fund, and the aggregate remaining fund information of the Town, as of December 31, 2025 and 2026, and for the year then ended, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In addition, we will audit the Town's compliance over major federal award programs for the periods ended December 31, 2025 and 2026. We are pleased to confirm our acceptance and our understanding of this audit engagement by means of this letter. Our audits will be conducted with the objectives of our expressing an opinion on each opinion unit and an opinion on compliance regarding the Town's major federal award programs. The objectives of our audit of the financial statements are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America (GAAS) *and in accordance with Government Auditing Standards*, will always detect a material misstatement when it exists. Misstatements, including omissions, can arise from fraud or error and are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

The objectives of our compliance audit are to obtain sufficient appropriate audit evidence to form an opinion and report at the level specified in the governmental audit requirement about whether the Town complied in all material respects with the applicable compliance requirements and identify audit and reporting requirements specified in the governmental audit requirement that are supplementary to GAAS and Government Auditing Standards, if any, and perform procedures to address those requirements.

Accounting principles generally accepted in the United States of America (U.S. GAAP), as promulgated by the Governmental Accounting Standards Board (GASB) require that management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the GASB, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of our engagement, we will apply certain limited procedures to the required supplementary information (RSI) in accordance with auditing standards generally accepted in the United States of America (GAAS). These limited procedures will consist primarily of inquiries of management regarding their methods of measurement and presentation, and comparing the information for consistency with management's responses to our inquiries. We will not express an opinion or provide any form of assurance on the RSI. The following RSI is required by U.S. GAAP. . This RSI will be subjected to certain limited procedures but will not be audited:

- Management's Discussion and Analysis.
- Schedule of Changes in the Town's Total OPEB Liability and Related Ratio (GASB 75) (Unaudited)
- Schedule of Town's Proportionate Share of the Net Pension Liability (Unaudited)
- Schedule of Town Contributions (Unaudited)
- Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget (Non-GAAP Basis) and Actual – General Fund and Major Funds (Unaudited)

Supplementary information other than RSI will accompany the Town's basic financial statements. We will subject the following supplementary information to the auditing procedures applied in our audit of the basic financial statements and perform certain additional procedures, including comparing and reconciling the supplementary information to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and additional procedures in accordance with U.S. GAAS. We intend to provide an opinion on the following supplementary information in relation to the basic financial statements as a whole:

- Combining Balance Sheet – Nonmajor Governmental Funds
- Combining Statement of Revenues, Expenditures and Changes in Fund Balances – Nonmajor Governmental Funds

Schedule of Expenditures of Federal Awards

We will subject the schedule of expenditures of federal awards to the auditing procedures applied in our audit of the basic financial statements and certain additional procedures, including comparing and reconciling the schedule to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and additional procedures in accordance with auditing standards generally accepted in the United States of America. We intend to provide an opinion on whether the schedule of expenditures of federal awards is presented fairly in all material respects in relation to the financial statements as a whole.

Data Collection Form

Prior to the completion of our engagement, we will complete the sections of the Data Collection Form that are our responsibility. The form will summarize our audit findings, amounts and conclusions. It is management's responsibility to submit a reporting package including financial statements, schedule of expenditure of federal awards, summary schedule of prior audit findings and corrective action plan along with the Data Collection Form to the federal audit clearinghouse. The financial reporting package must be text searchable, unencrypted, and unlocked. Otherwise, the reporting package will not be accepted by the federal audit clearinghouse. We will assist you in the electronic submission and certification. You may request from us copies of our report for you to include with the reporting package submitted to pass-through entities.

The Data Collection Form is required to be submitted within the *earlier* of 30 days after receipt of our auditors' reports or nine months after the end of the audit period, unless specifically waived by a federal cognizant or oversight agency for audits. Data Collection Forms submitted untimely are one of the factors in assessing programs at a higher risk.

Audit of the Financial Statements

We will conduct our audits in accordance GAAS, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America; the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). As part of an audit of financial statements in accordance with GAAS and, in accordance with *Government Auditing Standards*, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of controls.
- Obtain an understanding of the system of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. However, we will communicate to you in writing concerning any significant deficiencies or material weaknesses in internal control relevant to the audit of the financial statements that we have identified during the audit.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Conclude, based on the audit evidence obtained, whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for a reasonable period of time.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, an unavoidable risk that some material misstatements or noncompliance may not be detected exists, even though the audit is properly planned and performed in accordance with GAAS and *Government Auditing Standards* of the Comptroller General of the United States of America. Please note that the determination of abuse is subjective and *Government Auditing Standards* does not require auditors to detect abuse.

Our responsibility as auditors is limited to the period covered by our audit and does not extend to any other periods.

We will issue a written report upon completion of our audit of the Town's basic financial statements. Our report will be addressed to the governing body of the Town. Circumstances may arise in which our report may differ from its expected form and content based on the results of our audit. Depending on the nature of these circumstances, it may be necessary for us to modify our opinions, add an emphasis-of-matter or other-matter paragraph(s) to our auditor's report, or if necessary, withdraw from the engagement. If our opinions on the basic financial statements are other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed opinions, we may decline to express opinions or to issue a report as a result of this engagement.

In accordance with the requirements of *Government Auditing Standards*, we will also issue a written report describing the scope of our testing over internal control over financial reporting and over compliance with laws, regulations, and provisions of grants and contracts, including the results of that testing. However, providing an opinion on internal control and compliance over financial reporting will not be an objective of the audit and, therefore, no such opinion will be expressed.

At the conclusion of the audit, we will provide copies of our reports to you; however, management is responsible for distribution of the reports and the financial statements. Unless restricted by law or regulation, or containing privileged and confidential information, copies of our reports are to be made available for public inspection.

Audit of Major Program Compliance

Our audit of the Town's major federal award program(s) compliance will be conducted in accordance with the requirements of the Single Audit Act, as amended; and the Uniform Guidance, and will include tests of accounting records, a determination of major programs in accordance with the Uniform Guidance and other procedures we consider necessary to enable us to express such an opinion on major federal award program compliance and to render the required reports. We cannot provide assurance that an unmodified opinion on compliance will be expressed. Circumstances may arise in which it is necessary for us to modify our opinion or withdraw from the engagement.

The Uniform Guidance requires that we also plan and perform the audit to obtain reasonable assurance about whether material noncompliance with applicable laws and regulations, the provisions of contracts and grant agreements applicable to major federal award programs, and the applicable compliance requirements occurred, whether due to fraud or error, and express an opinion on the Town's compliance based on the audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Town's compliance with the requirements of the federal programs as a whole.

As part of a compliance audit in accordance with GAAS and, if applicable, in accordance with *Government Auditing Standards*, we exercise professional judgment and maintain professional skepticism throughout the audit. We also identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks.

Our procedures will consist of determining major federal programs and, performing the applicable procedures described in the U.S. Office of Management and Budget *OMB Compliance Supplement* for the types of compliance requirements that could have a direct and material effect on each of the Town's major programs, and performing such other procedures as we consider necessary in the circumstances. The purpose of those procedures will be to express an opinion on the Town's compliance with requirements applicable to each of its major programs in our report on compliance issued pursuant to the Uniform Guidance.

Also, as required by the Uniform Guidance, we will obtain an understanding of the Town's internal control over compliance relevant to the audit in order to design and perform tests of controls to evaluate the effectiveness of the design and operation of controls that we consider relevant to preventing or detecting material noncompliance with

compliance requirements applicable to each of the Town's major federal award programs. Our tests will be less in scope than would be necessary to render an opinion on these controls and, accordingly, no opinion will be expressed in our report. However, we will communicate to you, regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we have identified during the audit.

We will issue a report on compliance that will include an opinion or disclaimer of opinion regarding the Town's major federal award programs, and a report on internal controls over compliance that will report any significant deficiencies and material weaknesses identified; however, such report will not express an opinion on internal control.

Management's Responsibilities

Our audit will be conducted on the basis that management and, when appropriate, those charged with governance acknowledge and understand that they have responsibility:

As part of our audit process, we will request from management and, when appropriate, those charged with governance, written confirmation concerning representations made to us in connection with the audit.

2nd Quarter Summary

Inflation and Revenue Uncertainty continue as the Town of Brighton's Financial Concerns

In addition to the usual inflationary impacts, we are expected slowing revenues:

- Higher costs for most goods & services
- Higher costs for town capital equipment and large projects
- Continued pressure on wages and benefits
- Lower interest earnings as rates fall
- Stagnating sales revenue as predicted by NYS Comptroller's Office
(mortgage tax revenues fell compared to last year's first bi-annual payment)

2nd Quarter Conclusions

Town of Brighton

1. At the end of the 2nd quarter of 2025, revenue collections and trends are somewhat consistent with 2024 year-to-date percentages, however, interest income is beginning to fall
2. While inflation remains the biggest threat to fiscal performance and developing the 2026 Budget, we are also carefully watching revenues as well
3. Finance continues to maximize earned interest as we are able, offsetting increased costs for as long as possible
4. Results are generally tracking budget expectations to date, and we do not anticipate any unusual financial results from 2025 operations
5. Managing large grants and projects as well as possible to ensure they track budgets to limit assistance needed from fund balances
